Accessible Data Analysis: Using St. Louis Data to Explore Global Issues

SLU Data Science Seminar

April 5th, 2017

Getting Your Own Copies of the Software

R and RStudio are freely available - you can download them from these sources:

1. R - https://www.r-project.org

2. RStudio - https://www.rstudio.com/

Getting Copies of Session Data

Once you have R and RStudio installed, you need to install and load the `devtools` package and use it to download and install the `stldata` package:

```
# install and open devtools:
install.packages("devtools")
library(devtools)

# use devtools to install our package from GitHub
install_github("chris-prener/stldata")
```

Getting Copies of Session Files

Copies of the R Notebook and this handout are available on our GitHub page - https://github.com/slu-dss/atlasWeek17.
